

A Winter's Feast.

Pauline Farries.

My wish is that you the viewers do indeed enjoy a feast of visual art during this mid - winter chill. I try to paint outside in most seasons and in the oils I have chosen for this exhibition I have wandered from the coast at Walkerville, through the Leongatha wetlands to the flooding last spring at Mossvale Park.

In showing my interpretation of our local surroundings I hope you enjoy these along with all the work presented by the MAG volunteers.
